TERMS OF ACCEPTANCE

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those for findings, we will recommend that you seek the services of all health care providers who specializes in that area.

Chiropractic has only one goal. It is important that each patient understand both the *objective* and the *method* that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express it's maximum health potential.

Regardless of what a disease is called, we do not offer to treat it, nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I, _____ have read and fully understand the above statements.

_____ I understand that services offered today, and in the future are not a substitute for medical care and that any information provided by the therapist is for educational purposes only, and is not diagnostically prescriptive in nature.

_____ I have stated all of my known medical conditions on the Client Information Form. I have consulted a medical doctor or licensed medical health care practitioner regarding any checked or described conditions.
